

ELVIS OLOGEH

Full Stack Web Developer

Email: ologehelvis@gmail.com Phone: +2349078599647

TECHNICAL SKILLS

- **Programming:** Typescript, Javascript, Next.js, Node.js, Python, Gen AI (Open AI)
- **Database Management:** MySQL, MongoDB, PostgreSQL, Prisma
- **Cloud Services:** AWS, Cloudflare CDN
- **Skills:** Geospatial Data Analysis, Digital Mapping, GIS.
- **Soft Skills:** Analytical and Logical thinking, Teamwork and Collaboration, Github

EDUCATION

Bachelor of Science : Surveying and Geo Informatics

Obafemi Awolowo University, Ile-Ife, Osun State, Nigeria.

(2022 -2027)

KEY PROJECTS

Boosta - E commerce Saas (Lead Developer / Founder) - Sept 2025 – till date

Technologies: Nextjs, Typescript, Express, Prisma, Docker.

- Architected a **multi-tenant social commerce platform** allowing vendors to manage individual storefronts within a unified ecosystem.
- Developed a high-performance front-end using **Next.js** and **TypeScript**, ensuring 100% type safety and eliminating runtime errors through strict configuration.
- Engineered the core logic for social commerce features, focusing on seamless user onboarding and inventory management.

OAU Chowfinder – Location Based Discovery App (CTO) - June 2025 – January 2026

Technologies: Nextjs, MongoDB, Leaflet, Google Maps API.

- Designed and deployed a location-based web application to help students and visitors find dining options across the Obafemi Awolowo University campus.
- Integrated mapping features to enhance food discovery, leveraging geospatial principles to provide accurate location data.
- Optimized the platform for mobile performance, ensuring a fast and responsive experience for on-the-go users.
